PRICE TWO CENTS

Suffered 20 Years.

Mrs. Mary Lewis, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change. I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

CURIOSITY

As to the Exact Shape of Spain's Proposals Ungratified.

PHILIPPINE ISLANDS

President Believes the United States Has No Use For Them.

NOTHING FROM GEN. MILES

The One Hundred and Sixtieth Indiana Substituted For the Fifth Illinois For the Porto Rican Expedition—Deposed Regiment Terribly Demoralized—Typhoid Fever, Malaria and Tuberculosis at Camp Alger—News of the Last Expedition Sent to Supply Gomez With Food and Munitions of War. Shafter's Fever Report.

Washington, July 28.—The initiation of overtures for peace has had the effect of suspending in a large measure, for the time being at least, interest in the military and naval situation. Though it is known through the open admission of members of the administration that the present peace phase would remain unchanged until after another cabinet meeting tomorrow there was still evinced a disposition to discuss this matter in its every aspect. Naturally the first point of inquiry was the exact shape taken by the Spanish presentation. Curiosity on this point remained ungratified, and must probably so continue for some days to come, the president having decided that nothing more definite than the statement issued from the white house shortly after the proposal was received shall be given to the public at this time. The motive is a prudent one, and the president has even gone so far as to suggest to the Madrid authorities the expediency of keeping the text of the Spanish overture from publication at this time.

The president discussed this complex subject all day with various members of the cabinet, as they called in the course of ordinary business. Secretary Day and Postmaster General Charles Emory Smith spent some time at the white house exchanging views with the president. It was virtually admitted that upon only one point in peace negotiations there is likely to be serious friction—the future of the Philippines. As to Cuba and Porto Rico, our government feels that there is a reasonable certainty of encountering little opposition to our demands.

As to the Philippines there is a full expectation of greater difficulties to be surmounted. The president is firmly of the opinion that the United States has no use for the islands as a permanent possession. The gravest problems of government would result were the at-

If mothers would cast aside foolish prudery, and impart to their daughters the knowledge that they themselves have acquired by years of suffering, they would be forced to spend fewer hours of anxious attendance at the bedside of sick daughters. A woman who suffers from weakness, disease, or derangement of the distinctly feminine organs is an incomplete woman. She is unfitted for woman's highest and best duty—motherhood. She cannot be a happy wife or the mistress of a happy home. Dr. Pierce's Favorite Prescription is the only proprietary medicine ever devised by an expert skilled specialist in woman's diseases for the one purpose of curing these troubles in the privacy of the home. It makes a woman strong and healthy in a womanly way, and can be relied upon to relieve motherhood of all peril and almost all pain. It insures healthy, robust children. It transforms weak, sickly, nervous invalids into healthy, happy wives and mothers.

Words fail to describe my suffering before I took Dr. Pierce's Favorite Prescription and "Pleasant Pills," writes Miss Lillie S. Hardy, of South Seabrook, Rockingham Co., N. H. "I could hardly walk across the room. I had an abscess on the fallopian tube that discharged through the bladder. It left the bladder in an irritable condition and the uterus inflamed. I had an awful burning in my stomach, no appetite, wasting away, an incomplete woman. I was confined to my bed five months. Then I commenced the use of your medicines and have been greatly benefited by them."

tempt to be made to annex them, owing to the heterogeneous and ill-favored character of the large population of the islands.

However, there are evidences that a large element in the United States is of the opinion that the islands should be acquired by the United States and it is hoped by the president that before it comes to the formulation officially of the United States' demand, public sentiment in this country, through newspaper discussion and otherwise, will have so far crystallized as to enable the government to perceive the popular demand clearly.

It is almost certain that Spain recognizes that she must consent to the abandonment of Cuba and Porto Rico. With these two vital points passed there is likely to be little delay on the question of indemnity, as there is every disposition here not to press with undue severity on Spain in this respect.

ORDERED BACK.

One Hundred and Sixtieth Indiana Substituted For the Fifth Illinois. Chickamauga, July 28.—The continuous rain of yesterday caused all drill work to be abandoned for the day. The Third Kentucky, the Fifth Illinois and the Third battalion of the Sixteenth Pennsylvania left the park yesterday under orders to proceed to Porto Rico, but before the Fifth Illinois had time to lead for its departure a rush order came from Secretary Alger for it to return to camp and ordering out in its stead the One Hundred and Sixtieth Indiana. This is the second time that the Fifth Illinois has been ordered back after being under orders to go to the front. Naturally, the matter has caused a very considerable unpleasant feeling among the officers and men of the regiment. This regiment is now assigned to the First brigade, Second division, First corps, taking the place of the Indiana regiment ordered out.

When Major Almy of General Wade's staff, arrived in the camp of the One Hundred and Sixtieth Indiana yesterday afternoon and announced to Colonel Gunder that his regiment had been ordered to proceed to Newport. News as a part of the Porto Rican force, the news was immediately communicated to the men of the regiment and scenes of enthusiasm prevailed for half an hour. The men shouted wildly and pitched their hats up like children playing, so great was their joy. The regiment hurriedly packed its effects, but seeing that it could not get out on the cars last evening, an order was sent from headquarters directing Colonel Gunder to have his regiment break camp early this morning and march to the Rosville loading station. The regiment will probably get away from Rosville this afternoon. The First Kentucky was delayed in loading and did not leave Rosville until yesterday. The regiment was followed by the Third battalion of the Sixteenth Pennsylvania, under command of Lieutenant Colonel Rickards.

The Third Kentucky under command of Colonel Smith, left Chattanooga last night for Newport News. A sorrier and more disgusted lot of soldiers was never seen than the men of the Fifth Illinois regiment when orders were received yesterday to unload and return to Chickamauga park. The command had been extremely anxious to get to the front. All kinds of unsavory charges are being openly made against Colonel Culver, the commanding officer, not only by privates, but by subordinate officers. They claim that their regiment has been betrayed by Colonel Culver, who represented to President McKinley that the regiment is not fit for field duty, and on these representations the president relieved the command from going to Porto Rico. The subordinate officers claim that the command is in very excellent condition and in splendid fighting trim. As soon as the full situation dawned on the men the greatest disorder prevailed and there was no semblance of discipline. Men left the ranks by dozens and scores and nearly 100 members of the regiment left camp, most of them without leave, and went to Chattanooga. The morale of the regiment is shattered and many of the men declare they will no longer serve under Culver. One man broke his gun over a tree and left the camp without leave.

NOTHING FROM MILES.

War Department Is Reconciled to His Change of Plans. Washington, July 28.—Nothing was heard from the Miles expedition yesterday at the war department, but Captain Higginson, the senior officer of the naval convoy, forwarded a brief cablegram that gave keen delight to the navy department, because of the unstinted praise it accorded to a popular and dashing young officer—Dick Wainwright, the commander of the Gloucester. Wainwright enjoys the distinction of being the only officer attached to Sampson's fleet who has been twice officially commended since the war began. The war department has reconciled itself to the summary change in its plans made by General Miles when he landed at Guanica, instead of on the northeast coast of Porto Rico, as previously agreed upon. It is surmised that he was led to make this change by reason of the detention of his lighters and foresaw a week's delay in effecting a landing unless he went in where he did and ran his troops and artillery directly ashore. He thus has avoided exposing his troops to the hardships suffered by Shafter's men as they lay for so many days off Santiago.

The departure of General Brooke and General Haines from Hampton Roads today to reinforce General Miles in Porto Rico is a very substantial evidence of the purpose of the government not to abate the prosecution of military operations at this stage of the peace negotiations.

CAMP ALGER NEWS.

Typhoid Fever—Robbed the Mails—Has Tuberculosis.

Camp Alger, July 28.—Ten new cases of typhoid were sent from here to Fort Myer yesterday. There are also many cases of malarial, intermittent fever and other ailments in camp which might develop into typhoid. Private Vandervoort, Company F, Eighth Ohio and John Kendall, Company D, One Hundred and Fifty-ninth Indiana have been found to be affected with tuberculosis. Private Floyd W. Gay, Company F, Sixty-fifth New York, is under arrest charged with robbing the mails. He was employed as clerk in handling the soldiers' mail and when it was found that letters were not being delivered an investigation was set on foot. Gay paid to a woman in Washington a check upon which payment was refused by a Buffalo bank as payment had been stopped. The woman together with an officer walked through the camp during an inspection to find the man who gave her the check and when they approached Gay he broke from the ranks and ran to the woods. He was captured and confessed to stealing letters and their contents. He may be tried either in a civil or military court, probably the latter.

Shafter's Fever Report.

Washington, July 28.—Last night the war department posted the following dispatch from General Shafter at Santiago: Reports show total sick, 3,770; total fever cases, 2,924; new cases of fever, 639; cases of fever returned to duty, 538.

SPANISH PRISONERS.

Transports On Their Way to Santiago to Remove Them to Spain. Washington, July 28.—It is expected that the embarkation of the Spanish prisoners will begin very soon. The Alcantar has sailed from Martinique and the hospital ship San Augustin sailed yesterday. The Isla Luzon and the Isla Panaya sailed from Cadiz yesterday for Santiago. The Leon XIII, the Salustigien, the Cavodonja and the Colon, all at Cadiz are expected to sail very soon. The capacity of these various ships is as follows: Alcantar, 1,800, San Augustin 800, Isla Luzon 1,900, Isla Panaya 1,900, Leon XIII 2,000, Salustigien 2,050, Cavodonja 2,210, Colon 2,170.

It will be observed that none of these were in Mexican ports as had been reported. The provisioning and loading of the ships at Santiago may take some time but all possible speed will be the policy of the war department.

PORTO RICO CAMPAIGN.

Spanish Troops Are Being Concentrated at San Juan.

St. Thomas, D. W. I., July 28.—The Spanish troops in Porto Rico are being withdrawn from the outlying towns and are concentrating upon San Juan. The defenses of the capital are being strengthened.

Captain Capron's Funeral.

Washington, July 28.—Funeral services over the remains of Captain Allyn Capron, one of the gallant heroes of Roosevelt's "rough riders" who fell before Siboney, July 1, were held here yesterday, the body having been brought north on the government transport Hudson. Services were held in St. Paul's Episcopal church. The coffin was laid in a profusion of floral offerings. Rev. Dr. Harding opened the services and a choir of young ladies sang "Nearer My God to Thee" and "Lead Kindly Light." The body was then interred in Arlington.

Japanese Press on the Philippines.

Yokohama, July 28.—Discussing the Philippine question, the Japanese press generally favors the retention of the islands by the United States. There would be no objection to their transfer to Great Britain.

HAWAIIANS EXCITED

Over the Annexation News Brought by the Steamship Coptic.

PANDEMONIUM REIGNED

Whistles Blew, Fireworks Burned and 100 Guns Were Fired.

AN IMMENSE PARADE

Marched Through the Streets With the Bands Playing American Patriotic Airs. President Dole Met the Steamer at the Wharf—Silver Cup Presented to the Captain of the Coptic—Harold Sewall For Governor of the Island—Programme For Annexation Ceremonies.

San Francisco, July 28.—The steamer Mariposa has arrived from Australia and Honolulu, bringing the following: Honolulu, July 20.—The steamship Coptic arrived from San Francisco on the evening of the 13th inst. with the important news that the United States senate had ratified the Newlands resolution, making Hawaii a part of the United States. Long before the vessel had reached the harbor it was known that the steamer brought annexation news, the information being signalled to the Mohican.

Whistles of steamers, foundries and mills were turned loose and pandemonium reigned. Fireworks were set off and 100 guns were fired on the grounds of the executive building.

At the same time the Hawaiian band marched through the streets to the wharf playing American patriotic airs. An immense procession was formed and a march was made to the executive building. President Dole was at his beach home when the steamer was sighted. He hurried into town and reached the wharf just as the steamer tied up.

Captain Sealy of the Coptic was presented with a silver cup by the citizens of Honolulu for bringing the news. The cup bore the inscription:

Annexation. Presented by the citizens to Captain Inman Sealy, R. N. R., who brought the good news to Honolulu.

Programme of Exercises. The committee of the Honolulu Annexation club and the executive council have arranged the official programme of exercises, subject, of course, to any changes Admiral Miller may suggest. In the morning there will be a combined naval and military parade, consisting of men from the warships and the full strength of the national guard.

After parading the principal streets the procession will move to the government building where President Dole, the cabinet, Admiral Miller and staff, Minister Sewall, Consul General Heywood and others will be grouped. The literary exercises will first take place, together with the singing of patriotic American airs. President Dole will then deliver an address, and a salute of 21 guns will be fired as the Hawaiian flag is lowered.

The audience will then sing "The Star Spangled Banner" to the music of the band, when Admiral Miller will hoist the stars and stripes, which will be saluted by 21 guns. If President McKinley sends a proclamation it will be read by Admiral Miller previous to the hoisting of old glory.

Minister Sewall, Consul General Heywood and others will deliver short addresses and the ceremony will close with the presentation by President Dole of an American flag to the Hawaiian National Guard. The flag is the original silk one used by the Boston's battalion in 1893, when the warship was here.

In the evening there will be a grand display of fire works and the government buildings will be illuminated on a magnificent scale.

A banquet will be tendered to Admiral Miller and a ball will follow at the opera house. The citizens have subscribed \$15,000 for the day's celebration and the most important event in the history of the islands will be celebrated with a magnificence worthy of the occasion.

Returning steamers from other islands all report a vociferous reception of the annexation news and scenes similar to the one which occurred in Honolulu. Preparations were at once made in all the towns to officially celebrate the raising of the stars and stripes by Admiral Miller in this city.

Sewall For Governor. The leading men of Honolulu met yesterday and recommended Harold M. Sewall, United States minister to Hawaii, for governor of the islands.

It had been generally thought that President Dole would be their choice.

The Ohio, Para, Valencia and Indiana, four vessels of the third fleet of transports, which returned to Honolulu on account of an accident to the Indiana, were delayed here about 24 hours and sailed again for Manila on the 9th.

There was some defect in the boilers of the Indiana.

The Monadnock and the Nero sailed on the 13th. During the monitors stay in port Captain Whiting had considerable change made in her condensing apparatus and in means for ventilating the engine and boiler rooms. On the trip down the engineers and firemen suffered greatly from the heat.

E. L. Greene of Portland, who shipped as a stoker on the Monadnock, was sent to the insane asylum on the 12th inst. Greene is a dentist and had a lucrative practice when the war broke out. He has a brother who graduated at the Annapolis naval academy and is with the fleet off Santiago. It is believed that rest will speedily restore him. Greene's condition is a result of excessive heat of the fire room.

GOT BACK \$2,000.

He Had Paid an Estate on a Worthless Note.

Lexington, Ky., July 28.—E. J. Curley, the big distiller, has been given a verdict against the Wilgus estate for \$2,000, which recalls a sharp contest. Years ago Curley borrowed \$5,000 from Wilgus, and after the latter died among his papers was found a \$5,000 note from Curley to Wilgus. Curley claimed that he had paid the note, but rather than be forced into litigation paid \$2,000 on the note. Later on it was discovered that the note was an old one that had been renewed and afterward paid. Mr. Curley then brought suit for the return of the \$2,000 paid by him.

LEVI Z. LEITER.

Sells Valuable Property in Chicago to Marshall Field.

Chicago, July 28.—Levi Z. Leiter yesterday filed for record a warranty deed conveying to Marshall Field for a consideration of \$2,135,000 the property at the southeast corner of State and Madison streets in this city. The corner is considered one of the most valuable for business purposes in Chicago. War revenue stamps amounting to \$2,135 were attached to the deed.

SAGASTA IS WARM.

He Will Protest the Landing of Troops in Porto Rico.

London, July 28.—The Madrid correspondent of the Daily Mail says: "Spain will probably protest against an attack upon Porto Rico after the Washington cabinet had officially received Spanish overtures for peace. Should a circular note on this subject be sent to the powers, it will contain the exact dates of the Spanish communications, making it clear that the United States deferred its answer in order to be able to date this after the American forces had gained a footing in Porto Rico."

"Senor Sagasta said yesterday: 'We resolved on peace many days ago and made known our resolutions to the United States government. I regard as null and void and as destitute of good faith everything the Americans have done since, and I am ready to protest against it formally.'"

"An official dispatch from Porto Rico says: 'On Tuesday the Americans advanced in the direction of Yauco, fighting most of the way. Seven hundred Spanish regulars and volunteers encountered them and an engagement ensued which lasted the whole night and only ceased with dawn on the following day. The Americans were obliged to withdraw to the coast.'"

PREPARING FOR WATSON.

Spain Strongly Fortifying Gibraltar—Exchanged Civilities.

London, July 28.—The Gibraltar correspondent of The Daily News says: "A curious exchange of civilities has passed between Great Britain and Spain. The Spanish consul here, under instructions from Madrid, called on Sir Robert Biddulph, governor and commander-in-chief at Gibraltar, expressing concern lest the Americans should find 'facilities' at Gibraltar. The governor replied that the Spanish government might rest quite easy for if Commodore Watson came, the authorities would act strictly according to the queen's proclamation, copies of which, he said, had just been distributed to all the chief officials of the garrison."

"Spain for the last fortnight has been making extensive preparations in the Bay of Gibraltar. Twenty guns have just been shipped to Ceuta and four have been mounted around the bay. There are 11,000 men at Algeiras and 1,000 engineers are daily working at the batteries and fortified trenches behind the cemetery of Lina, a mile north of the British lines."

HAVANA EXAGGERATION.

The Wanderer Landed a Portion of Her Supplies For Gomez.

Washington, July 28.—Assistant Secretary Melckjohn has just received news of the result of the last expedition sent by him to Cuba to supply Gomez's forces in the western end of the island with food and munitions of war. This expedition was carried on the transport Wanderer. Havana reports describe the landing as a failure and say that four of the landing party, including the lieutenant, were killed.

This is the usual Spanish exaggeration. One third of the supplies carried by the Wanderer had been landed and sent into the territory beyond Spanish reach when an overwhelming force of Spanish troops appeared and compelled the abandonment of the attempt to land the remainder. None of the American party was killed, but four men were wounded. Their injuries were slight.

STARTED OUT YOUNG

Couple Aged 14 and 12 Married in Kentucky.

Mayking, Ky., July 28.—John Henry Persons, aged 14, eloped with pretty Miss Jean Davidson, the 12-year-old daughter of a prominent merchant of Cody. They procured horses, mounted and hid away over rough mountain roads to Hindman, 25 miles distant, where they were married in the presence of 300 people. They are the youngest couple ever married in eastern Kentucky.

Bismarck's Health.

Berlin, July 28.—In the face of conflicting statements and the secrecy maintained at Friedrichsruhe accurate accounts of Prince Bismarck's condition are impossible. From the best available sources it may be gathered that Bismarck's condition is one of diminishing strength and power to fight against chronic disease rather than of sudden collapse or change. He may live for some time unless sudden weakness of the heart sets in.

PRICE TWO CENTS

Suffered 20 Years.

MR. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

CURIOSITY

As to the Exact Shape of Spain's Proposals Ungratified.

PHILIPPINE ISLANDS

President Believes the United States Has No Use for Them.

NOTHING FROM GEN. MILES

Officials Reconciled to His Change of Plans.

The One Hundred and Sixtieth Indiana Substituted for the Fifth Illinois For the Porto Rican Expedition—Deposed Regiment Terribly Demoralized—Typhoid Fever, Mail Robbery and Tuberculosis at Camp Alger—News of the Last Expedition Sent to Supply Gomez With Food and Munitions of War. Shafter's Fever Report.

Washington, July 28.—The initiation of overtures for peace has had the effect of suspending in a large measure, for the time being at least, interest in the military and naval situation. Though it is known through the open admission of members of the administration that the present peace phase would remain unchanged until after another cabinet meeting tomorrow there was still evinced a disposition to discuss this matter in its every aspect. Naturally the first point of inquiry was the exact shape taken by the Spanish presentation. Curiosity on this point remained ungratified, and must probably so continue for some days to come, the president having decided that nothing more definite than the statement issued from the white house shortly after the proposal was received should be given to the public at this time. The motive is a prudential one, and the president has even gone so far as to suggest to the Madrid authorities the expediency of keeping the text of the Spanish overture from publication at this time.

The president discussed this complex subject all day with various members of the cabinet, as they called in the course of ordinary business. Secretary Day and Postmaster General Charles Emory Smith spent some time at the white house exchanging views with the president. It was virtually admitted that upon only one point in peace negotiations is there likely to be serious friction—the future of the Philippines. As to Cuba and Porto Rico, our government feels that there is a reasonable certainty of encountering little opposition to our demands.

As to the Philippines there is a full expectation of greater difficulties to be surmounted. The president is firmly of the opinion that the United States has no use for the islands as a permanent possession. The gravest problems of government would result were the at-

If mothers would cast aside foolish prudery, and impart to their daughters the knowledge that they themselves have acquired by years of suffering, they would be forced to spend fewer hours of anxious attendance at the bedside of sick daughters. A woman who suffers from weakness, disease, or derangement of the distinctly feminine organs is an incomplete woman. She is unfitted for woman's highest and best duty—motherhood. She cannot be a happy wife or the mistress of a happy home. Dr. Pierce's Favorite Prescription is the only proprietary medicine ever devised by an expert skilled specialist in woman's diseases for the one purpose of curing these troubles in the privacy of the home. It makes a woman strong and healthy in a womanly way, and can be relied upon to relieve motherhood of all peril and almost all pain. It insures healthy, robust children. It transforms weak, sickly, nervous invalids into healthy, happy wives and mothers.

"Words fail to describe my suffering before I took Dr. Pierce's Favorite Prescription and Pleasant Pellets," writes Miss Lillie S. Hardy, of South Seabrook, Rockingham Co., N. H. "I could hardly walk across the room. I had an abscess on the fallopian tube that discharged through the bladder. It left the bladder in an irritable condition and the uterus inflamed. I had an awful burning in my stomach, no appetite, wasting drain, constipation, excruciating monthly pains and backache all the time. I was confined to my bed five months. Then I commenced its use of your medicine and have been greatly benefited by them."

tempt to be made to annex them, owing to the heterogeneous and ill-favored character of the large population of the islands.

However, there are evidences that a large element in the United States is of the opinion that the islands should be acquired by the United States and it is hoped by the president that before it comes to the formulation officially of the United States' demand, public sentiment in this country, through newspaper discussion and otherwise, will have so far crystallized as to enable the government to perceive the popular demand clearly.

It is almost certain that Spain recognizes that she must consent to the abandonment of Cuba and Porto Rico. With these two vital points passed there is likely to be little delay on the question of indemnity, as there is every disposition here not to press with undue severity on Spain in this respect.

ORDERED BACK.

One Hundred and Sixtieth Indiana Substituted For the Fifth Illinois.

Chickamauga, July 28.—The continuous rain of yesterday caused all drill work to be abandoned for the day. The Third Kentucky, the Fifth Illinois and the Third battalion of the Sixteenth Pennsylvania left the park yesterday under orders to proceed to Porto Rico, but before the Fifth Illinois had time to load for its departure a rush order came from Secretary Alger for it to return to Camp and ordering out in its stead the One Hundred and Sixtieth Indiana. This is the second time that the Fifth Illinois has been ordered back after being under orders to go to the front. Naturally, the matter has caused a very considerable unpleasant feeling among the officers and men of the regiment. This regiment is now assigned to the First brigade, Second division, First corps, taking the place of the Indiana regiment ordered out.

When Major Almy of General Wade's staff, arrived in the camp of the One Hundred and Sixtieth Indiana yesterday afternoon and announced to Colonel Gunder that his regiment had been ordered to proceed to Newport News as a part of the Porto Rican force, the news was immediately communicated to the men of the regiment and scenes of enthusiasm prevailed for half an hour. The men shouted wildly and pitched their hats up like children playing, so great was their joy. The regiment hurriedly packed its effects, but seeing that it could not get out on the cars last evening, an order was sent from headquarters directing Colonel Gunder to have his regiment break camp early this morning and march to the Rossville loading station. The regiment will probably get away from Rossville this afternoon. The First Kentucky was delayed in loading and did not leave Rossville until yesterday. The regiment was followed by the Third battalion of the Sixteenth Pennsylvania, under command of Lieutenant Colonel Rickards. The Third Kentucky under command of Colonel Smith, left Chattanooga last night for Newport News.

A sorrier and more disgusted lot of soldiers was never seen than the men of the Fifth Illinois regiment when orders were received yesterday to unload and return to Chickamauga park. The command had been extremely anxious to get to the front. All kinds of unsavory charges are being openly made against Colonel Culver, the commanding officer, not only by privates, but by subordinate officers. They claim that their regiment has been betrayed by Colonel McKinley that the regiment is not fit for field duty, and on these representations the president relieved the command from going to Porto Rico.

The subordinate officers claim that the command is in very excellent condition and in splendid fighting trim. As soon as the full situation dawned on the men the greatest disorder prevailed and there was no semblance of discipline. Men left the ranks by dozens and scores and nearly 100 members of the regiment left camp, most of them without leave, and went to Chattanooga. The morale of the regiment is shattered and many of the men declare they will no longer serve under Culver. One man broke his gun over a tree and left the camp without leave.

NOTHING FROM MILES.

War Department Is Reconciled to His Change of Plans.

Washington, July 28.—Nothing was heard from the Miles expedition yesterday at the war department, but Captain Higginson, the senior officer of the naval convoy, forwarded a brief cablegram that gave him delight to the navy department, because of the unstinted praise it accorded to a popular and dashing young officer—Dick Wainwright, the commander of the Gloucester. Wainwright enjoys the distinction of being the only officer attached to Sampson's fleet who has been twice officially commended since the war began.

The war department has reconciled itself to the summary change in its plans made by General Miles when he landed at Guanica, instead of on the northeast coast of Porto Rico, as previously agreed upon. It is surmised that he was led to make this change by reason of the detention of his lighters and foresaw a week's delay in effecting a landing unless he went in where he did and ran his troops and artillery directly ashore. He thus has avoided exposing his troops to the hardships suffered by Shafter's men as they lay for so many days off Santiago.

The departure of General Brooke and General Haines from Hampton Roads today to reinforce General Miles in Porto Rico is a very substantial evidence of the purpose of the government not to abate the prosecution of military operations at this stage of the peace negotiations.

There was some defect in the boilers of the Indiana.

The Monadnock and the Nero sailed on the 13th. During the monitors stay in port Captain Whiting had considerable change made in her condensing apparatus and in means for ventilating the engine and boiler rooms. On the trip down the engineers and firemen suffered greatly from the heat.

E. L. Greene of Portland, who shipped as a stoker on the Monadnock, was sent to the insane asylum on the 12th inst. Greene is a dentist and had a lucrative practice when the war broke out. He has a brother who graduated at the Annapolis naval academy and is with the fleet off Santiago. It is believed that rest will speedily restore him. Greene's condition is a result of excessive heat of the fire room.

GOT BACK \$2,000.

He Had Paid an Estate on a Worthless Note.

Lexington, Ky., July 28.—E. J. Curley, the big distiller, has been given a verdict against the Wilgus estate for \$2,000, which recalls a sharp contest. Years ago Curley borrowed \$5,000 from Wilgus, and after the latter died among his papers was found a \$5,000 note from Curley to Wilgus. Curley claimed that he had paid the note, but rather than be forced into litigation paid \$2,000 on the note. Later on it was discovered that the note was an old one that had been renewed and afterward paid. Mr. Curley then brought suit for the return of the \$2,000 paid by him.

Chicago, July 28.—Levi Z. The corner is considered one of the most valuable for business purposes in Chicago. War revenue stamps amounting to \$2,135 were attached to the deed.

He Will Protest the Landing of Troops in Porto Rico.

London, July 28.—The Madrid correspondent of the Daily Mail says: "Spain will probably protest against an attack upon Porto Rico after the Washington cabinet had officially received Spanish overtures for peace. Should a circular note on this subject be sent to the powers, it will contain the exact dates of the Spanish communications, making it clear that the United States deflected its answer in order to be able to date this after the American forces had gained a footing in Porto Rico."

"Senor Sagasta said yesterday: 'We resolved on peace many days ago and made known our resolutions to the United States government. I regard as null and void and as destitute of good faith everything the Americans have done since, and I am ready to protest against it formally.'"

"An official dispatch from Porto Rico says: 'On Tuesday the Americans advanced in the direction of Yauco, fighting most of the way. Seven hundred Spanish regulars and volunteers encountered them and an engagement ensued which lasted the whole night and only ceased with dawn on the following day. The Americans were obliged to withdraw to the coast.'"

PREPARING FOR WATSON.

Spain Strongly Fortifying Gibraltar—Exchanged Civilities.

London, July 28.—The Gibraltar correspondent of The Daily News says: "A curious exchange of civilities has passed between Great Britain and Spain. The Spanish consul here, under instructions from Madrid, called on Sir Robert Biddulph, governor and commander-in-chief at Gibraltar, expressing concern lest the Americans should find 'facilities' at Gibraltar. The governor replied that the Spanish government might rest quite easy for if Commodore Watson came, the authorities would act strictly according to the queen's proclamation, copies of which, he said, had just been distributed to all the chief officials of the garrison."

"Spain for the last fortnight has been making extensive preparations in the Bay of Gibraltar. Twenty guns have just been shipped to Ceuta and four have been mounted around the bay. There are 11,000 men at Algeiras and 1,000 engineers are daily working at the batteries and fortified trenches behind the cemetery of Luna, a mile north of the British lines."

HAVANA EXAGGERATION.

The Wanderer Landed a Portion of Her Supplies For Gomez.

Washington, July 28.—Assistant Secretary McKeljohn has just received news of the result of the last expedition sent by him to Cuba to supply Gomez's forces in the western end of the island with food and munitions of war. This expedition was carried on the transport Wanderer. Havana reports describe the landing as a failure and say that four of the landing party, including the lieutenant, were killed.

This is the usual Spanish exaggeration. One third of the supplies carried by the Wanderer had been landed and sent into the territory beyond Spanish reach when an overwhelming force of Spanish troops appeared and compelled the abandonment of the attempt to land the remainder. None of the American party was killed, but four men were wounded. Their injuries were slight.

SEWELL FOR GOVERNOR.

The leading men of Honolulu met yesterday and recommended Harold M. Sewall, United States minister to Hawaii, for governor of the islands.

It had been generally thought that President Dole would be their choice.

The Ohio, Para, Valencia and Indiana, four vessels of the third fleet of transports, which returned to Honolulu on account of an accident to the Indiana, were delayed here about 24 hours and sailed again for Manila on the 9th.

HAWAIIANS EXCITED

Over the Annexation News Brought by the Steamship Coptic.

PANDEMONIUM REIGNED

Whistles Blew, Fireworks Burned and 100 Guns Were Fired.

AN IMMENSE PARADE

Marched Through the Streets With the Bands Playing American Patriotic Airs. President Dole Met the Steamer at the Wharf—Silver Cup Presented to the Captain of the Coptic—Harold Sewall For Governor of the Island—Programme For Annexation Ceremonies.

San Francisco, July 28.—The steamer Mariposa has arrived from Australia and Honolulu, bringing the following: Honolulu, July 28.—The steamship Coptic arrived from San Francisco on the evening of the 13th inst. with the important news that the United States senate had ratified the Newlands resolution, making Hawaii a part of the United States. Long before the vessel had reached the harbor it was known that the steamer brought annexation news, the information being signalled to the Mohican.

Whistles of steamers, foundries and mills were turned loose and pandemonium reigned. Fireworks were set off and 100 guns were fired on the grounds of the executive building.

At the same time the Hawaiian band marched through the streets to the wharf playing American patriotic airs. An immense procession was formed and a march was made to the executive building. President Dole was at his beach home when the steamer was sighted. He hurried into town and reached the wharf just as the steamer tied up.

Captain Sealby of the Coptic was presented with a silver cup by the citizens of Honolulu for bringing the news. The cup bore the inscription: Annexation. Presented by the citizens to Captain Inman Sealby, R. N. R., who brought the good news to Honolulu.

Programme of Exercises.

The committee of the Honolulu Annexation club and the executive council have arranged the official programme of exercises, subject, of course, to any changes Admiral Miller may suggest. In the morning there will be a combined naval and military parade, consisting of men from the warships and the full strength of the national guard.

After parading the principal streets the procession will move to the government building where President Dole, the cabinet, Admiral Miller and staff, Minister Sewall, Consul General Heywood and others will be grouped. The literary exercises will first take place, together with the singing of patriotic American airs. President Dole will then deliver an address, and a salute of 21 guns will be fired as the Hawaiian flag is lowered.

The audience will then sing "The Star Spangled Banner" to the music of the band, when Admiral Miller will hoist the stars and stripes, which will be saluted by 21 guns. If President McKinley sends a proclamation it will be read by Admiral Miller previous to the hoisting of old glory.

Minister Sewall, Consul General Heywood and others will deliver short addresses and the ceremony will close with the presentation by President Dole of an American flag to the Hawaiian National Guard. The flag is the original silk one used by the Boston's battalion in 1833, when the warship was here.

In the evening there will be a grand display of fire works and the government buildings will be illuminated on a magnificent scale.

A banquet will be tendered to Admiral Miller and a ball will follow at the opera house. The citizens have subscribed \$15,000 for the day's celebration and the most important event in the history of the islands will be celebrated with a magnificence worthy of the occasion.

Returning steamers from other islands all report a vociferous reception of the annexation news and scenes similar to the one which occurred in Honolulu. Preparations were at once made in all the towns to officially celebrate the raising of the stars and stripes by Admiral Miller in this city.

Republican State Convention.

The Indiana Republican State Convention will be held at Tomlinson Hall in Indianapolis on Wednesday and Thursday, August 3d and 4th, 1898. The convention will be composed of 1616 delegates, and promises to be one of the most interesting and enthusiastic conventions ever held in the State.

RAILROAD RATES.

Arrangements have been made with all railroads in Indiana for a special rates of one fare for the round trip to Indianapolis from all parts of the state for sale Aug. 2 and 3rd good returning including Aug 5th.

The direct manner with which the United States deals with all questions of diplomacy may be a little confusing to the Spanish mind but we think they would profit by taking the lesson seriously and adopting the same course in their dealing with other nations and with their own people.

There is a strong suspicion in the minds of our legislators at Washington and in the minds of the people generally that Spain attempted to have her peace proposals reach us in time to prevent or delay the invasion of Porto Rico and the capture of Manila. A really straight forward course is not in accord with Spanish precedents.

THE BOND ISSUE

The recent bond issue is a splendid lesson to every nation in the world. For the bonds amounting to \$200,000,000, there were subscriptions amounting to more than six times that amount, and the subscribers who asked for the smaller amounts will be the first ones accommodated. All the subscriptions for less than \$500 will be filled in full. These amount to about \$90,000,000. Not more than \$10,000 will be allotted to any one person. There were two bids each for the entire \$200,000,000 and one for \$100,000,000 at a slight premium, but none of these were accepted. It is in every sense a popular loan. From the character and the amount of the subscriptions it is apparent that the people of this country in all classes have implicit faith in the ability of the government to pay its obligations in full, as well as confidence that the policy of the government will always remain such that it will repay its debts in money as good as that it received. This is the firmly established policy of the republican party and the readiness with which the war loan was taken up by the people is a renewed vote of confidence on the part of the people. There is no longer a small class of bond holders, for the new bonds will be scattered among the people all over the country and they will have a new and personal interest in all the monetary legislation of the country and in the conduct of the government itself. A bond issue may be conducted so as to result in good or ill to the country and during the last four years we have had example of both methods.

It is hinted that Admirals Montejó and Cervera prefer to remain in this country as citizens to going home to be shot at. We cannot blame them.

No Royal Road to Learning.

There is no royal road to learning, but time and study are required to make a scholar.

The president of Oberlin college, when asked by a student if he could not take a shorter course, replied, "Oh yes; but that depends upon what you want to make of yourself. When God wants to make an oak he takes a hundred years, but when he wants to make a squash he takes six months."

J. F. Applewhite, Frank Brannan, C. F. Roberts, Alex Greger, J. D. Durnment and a few others of the county seat went this forenoon to Columbus to nominate a democrat candidate for congress.

Only a few years ago the price of bicycles was very high while that of horses were low. Manufacturers improved this time while breeders of horses lay quiet or slept. What are the conditions today? Just the reverse. Bicycles low price, horses high price. Plenty of bicycles, scarcity of horses. The old rule should always be applied. When everybody wants to buy, then sell, and vice versa. Always breed good horses.—Ex.

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good health, or you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the Stomach, liver and Kidneys, purifies the blood, cures pimples, blotches and boils, and give a good complexion. Every bottle guaranteed. Sold at W. F. Peter's Drug Store. 50 cents per bottle.

For a perfect complexion and a clear, healthy skin, use COSMO BUTTERMILK SOAP, sold by C. W. Milhous.

THE ROSES OF SEATTLE.
O roses of Seattle,
That bloom in June and May,
You are perfect as the poet's dream,
Fair as the golden day;
You scatter waves of fragrance
On the sleeping air of night;
Your rainbow painted petals
Are the glory of the light!

Fair is Nile's storied lotus
And the rose of Gullistan,
And pleasant is the poppy seed
That lulls the soul of man,
Rare are the lights and shadows
In the pansy's purple eyes,
But the roses of Seattle
Are the flowers of paradise.

O roses of Seattle,
That bloom in May and June,
Deep hearts of gold and crimson
That light the summer noon,
The cottage of the lowly
You paint with God's own plan;
In the mansion of the lordly
You shame the art of man!

I hold them fast in memory
Wherever I may roam,
These blossoms from the garden
Of the gods, dropped down from home.
The cruel years take from us
What years cannot restore,
But the roses of Seattle—
They bloom forevermore!

A STRANGE SENTENCE.

Punishment For a Murder That Was More Cruel Than Death.

In 1801 a man died in the Catskills who had been condemned by one of the strangest sentences on record. Ralph Sutherland was born in 1701 and lived in a stone house near Leeds. He was a man of violent temper and morose disposition, shunned by his neighbors and generally disliked. Not being able to get an American servant, he imported a Scotchwoman, and, according to the usage of the times, virtually held her in bondage until her passage money had been refunded.

Unable to endure any longer the raging temper of her master, the girl ran away. Immediately upon discovering her absence the man set off in an angry chase upon his horse and soon overtook her. The poor woman never reached the house alive, and Sutherland was indicted and arrested on the charge of murder.

At the trial he tried to prove that his horse had taken fright, run away, pitched him out of the saddle and dashed the girl to death upon the rocks, but the jury did not accept the defense, and Sutherland was sentenced to die upon the scaffold.

Then came the plea of the insufficiency of circumstantial evidence and the efforts of influential relations. These so worked upon the court that the judge delayed the sentence of death until the prisoner should be 99 years old.

It was ordered that the culprit should be released on his own recognizance, and that, pending the final execution of his sentence, he should keep a hangman's nose about his neck and show himself before the judges of Catskill once a year to prove that he wore his badge of infamy and kept his crime in mind. It was a more cruel decision than the sentence of immediate death would have been, but it was no doubt in harmony with the spirit of the times.

Thus Ralph Sutherland lived. He always lived alone. He seldom spoke. His rough, imperious manner had gone. Years followed years. At each session of the court the broken man came before the bar of justice and silently showed the nose that circled his neck.

At last his ninety-ninth year came, the time when the court had ordered that the utmost penalty of the law should be executed. For the last time the man tottered before the judge's bench, but new judges had arisen in the land, new laws had been made, old crimes had been forgotten or forgiven, and there was none who would accuse him or execute sentence. Indeed the awful restriction that had bound his life so intimately to the expiation of his crime was now legally removed.

But the spirit of self punishment continued, and when Sutherland, after he had passed his hundredth year, was discovered dead, alone in his house, his throat was found to be encircled by the rope which had been placed there nearly three-quarters of a century before.—Youth's Companion.

Republican State Convention.

The Indiana Republican State Convention will be held at Tomlinson Hall in Indianapolis on Wednesday and Thursday, August 3d and 4th, 1898. The convention will be composed of 1616 delegates, and promises to be one of the most interesting and enthusiastic conventions ever held in the State.

RAILROAD RATES.

Arrangements have been made with all railroads in Indiana for a special rates of one fare for the round trip to Indianapolis from all parts of the state for sale Aug. 2 and 3rd good returning including Aug 5th.

The direct manner with which the United States deals with all questions of diplomacy may be a little confusing to the Spanish mind but we think they would profit by taking the lesson seriously and adopting the same course in their dealing with other nations and with their own people.

THERE is a strong suspicion in the minds of our legislators at Washington and in the minds of the people generally that Spain attempted to have her peace proposals reach us in time to prevent or delay the invasion of Porto Rico and the capture of Manila. A really straight forward course is not in accord with Spanish precedents.

THE BOND ISSUE

The recent bond issue is a splendid lesson to every nation in the world. For the bonds amounting to \$200,000,000, there were subscriptions amounting to more than six times that amount, and the subscribers who asked for the smaller amounts will be the first ones accommodated. All the subscriptions for less than \$500 will be filled in full. These amount to about \$90,000,000. Not more than \$10,000 will be allotted to any one person. There were two bids each for the entire \$200,000,000 and one for \$100,000,000 at a slight premium, but none of these were accepted. It is in every sense a popular loan. From the character and the amount of the subscriptions it is apparent that the people of this country in all classes have implicit faith in the ability of the government to pay its obligations in full, as well as confidence that the policy of the government will always remain such that it will repay its debts in money as good as that it received. This is the firmly established policy of the republican party and the readiness with which the war loan was taken up by the people is a renewed vote of confidence on the part of the people. There is no longer a small class of bond holders, for the new bonds will be scattered among the people all over the country and they will have a new and personal interest in all the monetary legislation of the country and in the conduct of the government itself. A bond issue may be conducted so as to result in good or ill to the country and during the last four years we have had example of both methods.

It is hinted that Admirals Montejó and Cervera prefer to remain in this country as citizens to going home to be shot at. We cannot blame them.

No Royal Road to Learning.

There is no royal road to learning, but time and study are required to make a scholar.

The president of Oberlin college, when asked by a student if he could not take a shorter course, replied, "Oh yes; but that depends upon what you want to make of yourself. When God wants to make an oak he takes a hundred years, but when he wants to make a squash he takes six months."

Poor Innocent Girl!

A Greenecastle girl writing to a Brazil friend concerning her fellow in the army said: "I had a nice long letter from him. He is doing well. He has been assigned to the guard house for five days. He says it is pretty hot but you know he never shirks a duty. We are all so proud of his promotion."—Danyille Republican.

Henry Trapp, of the county seat aged 65 years fell from a load of hay one day this week and had his right leg broken at the hip. His age may be against his recovery.

J. F. Applewhite, Frank Brannan, C. F. Roberts, Alex Greger, J. D. Durnment and a few others of the county seat went this forenoon to Columbus to nominate a democrat candidate for congress.

Only a few years ago the price of bicycles was very high while that of horses were low. Manufactures improved this time while breeders of horses lay quiet or slept. What are the conditions today? ANXIOUSLY WAITING

FOR THE GOVERNMENT'S REPLY
TO SPAIN.

Porto Rican Campaign Being
Pushed.—Sick at Santiago—
160th Indiana Ordered
to Move.

Foreign powers are anxiously await-
ing the answer of the United States
especially with reference to the Philip-
pines. The apprehension exists in some
quarters that the note presented by
Spain was mainly for the purpose of
drawing out this government on that
point and preparing the way for a pro-
test by the continental powers, should
the United States demand the cession
of the Philippines.

The Porto Rican campaign will be
pushed with energy. The troops and
orders have been instructed to move
with all possible speed.

Maj. Gen. Shaffer's daily bulletin
shows a total of 3770 sick men in his
army, of whom 2924 have fever. There
were 639 new cases of fever Tuesday
while 538 returned to duty. He re-
ports four deaths from yellow fever
Tuesday, and three from other fevers.
Four other deaths from yellow fever not
previously reported are also given.

The One Hundred and Sixtieth In-
diana regiment at Chickamauga took
the place of the Fifth Illinois,
which while making preparations
for departure were ordered to re-
main at Camp Thomas. The Indiana
regiment will leave for Newport News
today and they will be taken to Porto
Rico.

LESSONS ON LIVING

What is Taught by Graves Filled With Victims of Kidney Troubles.

Scientific Research has Revealed a New Remedy and its Trials by the Public Has Proven its Value.

Prevention is better than cure—and sometimes if prevention is neglected there is no cure possible. Careless people get in the grip of frightful diseases that will drag them down through days and nights of pain, to the grave because they neglect the common symptoms that indicate the danger of bright's disease, diabetes, and various kidney complaints. Modern ways of living, especially in eating and drinking, have made kidney troubles terribly common, and the increase in death from this cause has led to the discovery of a remedy by scientific methods to discover what remedy nature has provided.

After a thorough trial, thousands of cures have proven that the discovery of Morrow's Kidneys will mark an epoch in the treatment of troubles due to derangement of the kidneys. This is unlike any other remedy in the world. Unlike many of the so-called kidney cures, Morrow's Kidneys acts once so that a long course of treatment is not needed. This feature of the new remedy is well illustrated by the case of W. J. Rogers, a well-known resident of Springfield, Ohio, living at 181 Warder Street. Mr. Rogers says: "For a long time I suffered with kidney and urinary troubles. I had such a severe backache, and such a burning sensation when passing urine that I became alarmed. Nothing gave relief till I tried Morrow's Kidneys, and one box quickly and completely cured me, and I have not returned to the troubles. Morrow's Kidneys are surely a wonderful kidney remedy, and I advise all who are afflicted with such troubles to use them and be quickly cured."

The lesson that is taught by the graves of those who have died of kidney troubles is this: Don't neglect a backache, don't neglect headaches, excitability of temper or nervousness. They are signs of disordered kidneys which if neglected, may lead to deadly disease. One box of Morrow's Kidneys will work wonders in improving the tone of your blood.

You can get Morrow's Kidneys from all dealers at 25 cents a box, or \$2.50 for six boxes. Sent postpaid by the John Morrow & Co., Chemists, Springfield, Ohio upon receipt of price.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist Will Send Free, to the Afflicted, Three Free Trials of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the SEYMOUR REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor commands it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 68 Pine Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the SEYMOUR REPUBLICAN.

A BUSINESS PARABLE.

You Cannot Fail to Appreciate the Point In This Story.

Once a farmer had 1,800 bushels of wheat, which he sold not to a single grain merchant, but to 1,800 different dealers, a bushel each. A few of them paid him in cash, but far the greater number said it was not convenient then; they would pay later. A few months passed, and the man's bank account ran low. "How is this?" he said. "My 1,800 bushels of grain should have kept me in abundance until another crop is raised, but I have parted with the grain and have instead only a vast number of accounts, so small and scattered that I cannot get around and collect fast enough to pay expenses."

So he posted up a public notice and asked all those who owed him to pay quickly. But few came. The rest said: "Mine is only a small matter, and I will go and pay one of these days," forgetting that though each account was very small, when all were put together they meant a large sum to the man.

Things went on thus. The man got to feeling so badly that he fell out of bed and awoke, and running to his granary found his 1,800 bushels of wheat still safe there. He had only been dreaming.

Moral.—The next day the man went to the publisher of his paper and said: "Here, sir, is the pay for your paper, and when next year's subscription is due you can depend on me to pay it promptly. I stood in the position of an editor last night, and I know how it feels to have one's honestly earned money scattered all over the country in small amounts."—Union Signal.

ORPHANS' HOME BURNED

Daughter Accuses Her Father of Murdering Her Brother—Foresters of America—Two Indians Die In Alaska. United States Sanitary Commission. Other State Happenings.

Stockton, Ind., July 27.—Mrs. J. W. Lindsay of this place, with her baby, went to Indianapolis yesterday on the hunt for her husband, who is a switchman employed by the Big Four company. Before starting for the city Mrs. Lindsay telegraphed her husband to meet her at the Union station. He failed to do so and as she was without money she was forced to ask the police for assistance and was taken to the Door of Hope from where she communicated with friends here. Mrs. Lindsay believes her husband is trying to get rid of her and the Indianapolis police will make an effort to find him.

TERRIBLE CHARGE.

Daughter Accuses Her Father of Murdering His Son.

Michigan City, Ind., July 28.—Harry Goldberg, 11 years old, the son of Samuel Goldberg, a Russian rag gatherer, mysteriously disappeared from home in October, 1896. Interest in the boy's disappearance has just been revived by the sensational statements of Lena, a daughter of the rag gatherer, who claims that her brother was killed by her father in one of his fits of passion, and that his body was buried in the garden lot. She also asserts that her father has been excessively brutal to other members of the family. Goldberg is now absent from home on one of his regular trips. The matter will be investigated.

ORPHANS' HOME.

Davies County Institution Totally Destroyed by Fire.

Washington, Ind., July 28.—The orphan's home of this county located in this city and erected in 1895 at a cost of \$22,000, caught fire yesterday and is now a mass of smoldering ruins. It was insured only for \$5,500. The origin of the fire is unknown. The home contained at the time of the fire 24 children between 1 and 16 years old, some of them sick with diphtheria. The home is maintained by the county and the loss is much regretted.

Mrs. Mary Lewis, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. CURIOSITY

The One Hundred and Sixtieth Indiana Substituted For the Fifth Illinois For the Porto Rican Expedition—Deposed Regiment Terribly Demoralized—Typhoid Fever, Malaria and Tuberculosis at Camp Alger—News of the Last Expedition Sent to Supply Gomez With Food and Munitions of War. Shafter's Fever Reported.

Washington, July 28.—The initiation of overtures for peace has had the effect of suspending in a large measure, for the time being at least, interest in the military and naval situation. Though it is known through the open admission of members of the administration that the present peace phase would remain unchanged until after another cabinet meeting tomorrow there was still evinced a disposition to discuss this matter in its every aspect. Naturally the first point of inquiry was the exact shape taken by the Spanish presentation. Curiosity on this point remained ungratified, and must probably so continue for some days to come, the president having decided that nothing more definite than the statement issued from the white house shortly after the proposal was received should be given to the public at this time. The motive is a prudent one, and the president has even gone so far as to suggest to the Madrid authorities the expediency of keeping the text of the Spanish overture from publication at this time.

The president discussed this complex subject all day with various members of the cabinet, as they called in the course of ordinary business. Secretary Day and Postmaster General Charles Emory Smith spent some time at the white house exchanging views with the president. It was virtually admitted that upon only one point in peace negotiations is there likely to be serious friction—the future of the Philippines. As to Cuba and Porto Rico, our government feels that there is a reasonable certainty of encountering little opposition to our demands.

As to the Philippines there is a full expectation of greater difficulties to be surmounted. The president is firmly of the opinion that the United States has no use for the islands as a permanent possession. The gravest problems of government would result were the at-

If mothers would cast aside foolish prudery, and impart to their daughters the knowledge that they themselves have acquired by years of suffering, they would be forced to spend fewer hours of anxious attendance at the bedside of sick daughters. A woman who suffers from weakness, disease, or derangement of the distinctly feminine organs is an incomplete woman. She is unfitted for woman's highest and best duty—motherhood. She cannot be a happy wife or the mistress of a happy home. Dr. Pierce's Favorite Prescription is the only proprietary medicine ever devised by an expert skilled specialist in woman's diseases for the one purpose of curing these troubles in the privacy of the home. It makes a woman strong and healthy in a womanly way, and can be relied upon to relieve motherhood of all peril and almost all pain. It insures healthy, robust children. It transforms weak, sickly, nervous invalids into healthy, happy wives and mothers.

Words fail to describe my suffering before I took Dr. Pierce's Favorite Prescription and "Pleasant Pellets," writes Miss Louise S. Hardy, of South Seabrook, Rockingham Co., N. H. "I could hardly walk across the room. I had an abscess on the fallopian tube that discharged through the bladder. I left the bladder in a terrible condition and the uterus inflamed. I had an awful burning in my stomach; no appetite, wasting away, constipation, excruciating monthly pains and backache all the time. I was confined to my bed five months. Then I commenced the use of your medicines and have been greatly benefited by them."

In paper covers, 21 one-cent stamps; cloth binding, 10 cents extra. Dr. Pierce's Common Sense Medical Adviser. Address Dr. R. V. Pierce, Buffalo, N. Y.

temp to be made to annex them, owing to the heterogeneous and ill-favored character of the large population of the islands.

However, there are evidences that a large element in the United States is of the opinion that the islands should be acquired by the United States and it is hoped by the president that before it comes to the formulation officially of the United States' demand, public sentiment in this country, through newspaper discussion and otherwise, will have so far crystallized as to enable the government to perceive the popular demand clearly.

It is almost certain that Spain recognizes that she must consent to the abandonment of Cuba and Porto Rico. With these two vital points passed there is likely to be little delay on the question of indemnity, as there is every disposition here not to press with undue severity on Spain in this respect.

ORDERED BACK.

One Hundred and Sixtieth Indiana Substituted For the Fifth Illinois.

Chickamauga, July 28.—The continuous rain of yesterday caused all drill work to be abandoned for the day. The Third Kentucky, the Fifth Illinois and the Third battalion of the Sixteenth Pennsylvania left the park yesterday under orders to proceed to Porto Rico, but before the Fifth Illinois had time to load for its departure a rush order came from Secretary Alger for it to return to camp and ordering out in its stead the One Hundred and Sixtieth Indiana. This is the Second time that the Fifth Illinois has been ordered back after being under orders to go to the front. Naturally, the matter has caused a very considerable unpleasant feeling among the officers and men of the regiment. This regiment is now assigned to the first brigade, Second division, First corps, taking the place of the Indiana regiment ordered out.

When Major Almy of General Wade's staff, arrived in the camp of the One Hundred and Sixtieth Indiana yesterday afternoon and announced to Colonel Gunder that his regiment had been ordered to proceed to Newport News as a part of the Porto Rican force, the news was immediately communicated to the men of the regiment and scenes of enthusiasm prevailed for half an hour.

The men shouted wildly and pitched their hats up like children playing, so great was their joy. The regiment hurriedly packed its effects, but seeing that it could not get out on the cars last evening, an order was sent from headquarters directing Colonel Gunder to have his regiment break camp early this morning and march to the Rossville loading station. The regiment will probably get away from Rossville this afternoon. The First Kentucky was delayed in loading and did not leave Rossville until yesterday. The regiment was followed by the Third battalion of the Sixteenth Pennsylvania, under command of Lieutenant Colonel Rickards. The Third Kentucky, under command of Colonel Smith, left Chattanooga last night for Newport News.

A sorrier and more disgusted lot of soldiers was never seen than the men of the Fifth Illinois regiment when orders were received yesterday to unload and return to Chickamauga park. The command had been extremely anxious to get to the front. All kinds of unsavory charges are being openly made against Colonel Culver, the commanding officer, not only by privates, but by subordinate officers. They claim that their regiment has been betrayed by Colonel McKinley, who represented to President McKinley that the regiment is not fit for field duty, and on these representations the president relieved the command from going to Porto Rico.

The subordinate officers claim that the command is in very excellent condition and in splendid fighting trim. As soon as the full situation dawned on the men the greatest disorder prevailed and there was no semblance of discipline. Men left the ranks by dozens and scores and nearly 100 members of the regiment left camp, most of them without leave, and went to Chattanooga. The morale of the regiment is shattered and many of the men declare they will no longer serve under Culver. One man broke his gun over a tree and left the camp without leave.

NOTHING FROM MILES.

War Department Is Reconciled to His Change of Plans.

Washington, July 28.—Nothing was heard from the Miles expedition yesterday at the war department, but Captain Higginson, the senior officer of the naval convoy, forwarded a brief cablegram that gave great delight to the navy department, because of the unstinted praise it accorded to a popular and dashing young officer—Dick Wainwright, the commander of the Gloucester. Wainwright enjoys the distinction of being the only officer attached to Sampson's fleet who has been twice officially commended since the war began.

The war department has reconciled itself to the summary change in his plans made by General Miles when he landed at Guamaica, instead of on the northeast coast of Porto Rico, as previously agreed upon. It is surmised that he was led to make this change by reason of the detention of his lighters and foresaw a week's delay in effecting a landing unless he went in where he did and ran his troops and artillery directly ashore. He thus has avoided exposing his troops to the hardships suffered by Shafter's men as they lay for so many days off Santiago.

The departure of General Brooke and General Haines from Hampton Roads today to reinforce General Miles in Porto Rico is a very substantial evidence of the purpose of the government not to abate the prosecution of military operations at this stage of the peace negotia-

Over the Annexation News Brought by the Steamship Coptic.

PANDEMONIUM REIGNED

Whistles Blew, Fireworks Burned and 100 Guns Were Fired.

AN IMMENSE PARADE

Marched Through the Streets With the Bands Playing American Patriotic Airs. President Dole Met the Steamer at the Wharf—Silver Cup Presented to the Captain of the Coptic—Harold Sewall For Governor of the Island—Programme For Annexation Ceremonies.

San Francisco, July 28.—The steamer Mariposa has arrived from Australia and Honolulu, bringing the following: Honolulu, July 20.—The steamship Coptic arrived from San Francisco on the evening of the 13th inst. with the important news that the United States senate had ratified the Newlands resolution, making Hawaii a part of the United States. Long before the vessel had reached the harbor it was known that the steamer brought annexation news, the information being signalled to the Mohican.

Whistles of steamers, foundries and mills were turned loose and pandemonium reigned. Fireworks were set off and 100 guns were fired on the grounds of the executive building.

At the same time the Hawaiian band marched through the streets to the wharf playing American patriotic airs. An immense procession was formed and a march was made to the executive building. President Dole was at his beach home when the steamer was sighted. He hurried into town and reached the wharf just as the steamer tied up.

Captain Sealy of the Coptic was presented with a silver cup by the citizens of Honolulu for bringing the news. The cup bore the inscription: Annexation. Presented by the citizens of Honolulu for bringing the news. The cup bore the inscription: Annexation. Presented by the citizens of Honolulu for bringing the news.

The committee of the Honolulu Annexation club and the executive council have arranged the official programme of exercises, subject, of course, to any changes Admiral Miller may suggest. In the morning there will be a combined naval and military parade, consisting of men from the warships and the full strength of the national guard.

After parading the principal streets the procession will move to the government building where President Dole, the cabinet, Admiral Miller and staff, Minister Sewall, Consul General Heywood and others will be grouped. The literary exercises will first take place, together with the singing of patriotic American airs. President Dole will then deliver an address, and a salute of 21 guns will be fired as the Hawaiian flag is lowered.

The audience will then sing "The Star Spangled Banner" to the music of the band, when Admiral Miller will hoist the stars and stripes, which will be saluted by 21 guns. If President McKinley sends a proclamation it will be read by Admiral Miller previous to the hoisting of old glory.

Minister Sewall, Consul General Heywood and others will deliver short addresses and the ceremony will close with the presentation by President Dole of an American flag to the Hawaiian National Guard. The flag is the original silk one used by the Boston's battalion in 1893, when the warship was here.

In the evening there will be a grand display of fire works and the government buildings will be illuminated on a magnificent scale.

A banquet will be tendered to Admiral Miller and a ball will follow at the opera house. The citizens have subscribed \$15,000 for the day's celebration and the most important event in the history of the islands will be celebrated with a magnificence worthy of the occasion.

Returning steamers from other islands all report a vociferous reception of the annexation news and scenes similar to the one which occurred in Honolulu. Preparations were at once made in all the towns to officially celebrate the raising of the stars and stripes by Admiral Miller in this city.

Sewall For Governor. The leading men of Honolulu met yesterday and recommended Harold M. Sewall, United States minister to Hawaii, for governor of the islands.

It had been generally thought that President Dole would be their choice. The Ohio, Para, Valencia and Indiana, four vessels of the third fleet of transports, which returned to Honolulu on account of an accident to the Indiana, were delayed here about 24 hours and sailed again for Manila on the 9th.

There was some defect in the boilers of the Indiana.

The Monadnock and the Nero sailed on the 13th. During the monitors stay in port Captain Whiting had considerable change made in her condensing apparatus and in means for ventilating the engine and boiler rooms. On the trip down the engineers and firemen suffered greatly from the heat.

E. L. Greene of Portland, who shipped as a stoker on the Monadnock, was sent to the insane asylum on the 12th inst. Greene is a dentist and had a lucrative practice when the war broke out. He has a brother who graduated at the Annapolis naval academy and is with the fleet off Santiago. It is believed that rest will speedily restore him. Greene's condition is a result of excessive heat of the fire room.

GOT BACK \$2,000.

He Had Paid an Estate on a Worthless Note.

Lexington, Ky., July 28.—E. J. Curley, the big distiller, has been given a verdict against the Wilgus estate for \$2,000, which recalls a sharp contest. Years ago Curley borrowed \$5,000 from Wilgus, and after the latter died among his papers was found a \$5,000 note from Curley to Wilgus. Curley claimed that he had paid the note, but rather than be forced into litigation paid \$2,000 on the note. Later on it was discovered that the note was an old one that had been renewed and afterward paid. Mr. Curley then brought suit for the return of the \$2,000 paid by him.

LEVI Z. LEITER.

Sells Valuable Property In Chicago to Marshall Field.

Chicago, July 28.—Levi Z. Leiter yesterday filed for record a warranty deed conveying to Marshall Field for a consideration of \$2,135,000 the property at the southeast corner of State and Madison streets in this city. The corner is considered one of the most valuable for business purposes in Chicago. War revenue stamps amounting to \$2,135 were attached to the deed.

SAGASTA IS WARM.

He Will Protest the Landing of Troops In Porto Rico.

London, July 28.—The Madrid correspondent of the Daily Mail says: "Spain will probably protest against an attack upon Porto Rico after the Washington cabinet had officially received Spanish overtures for peace. Should a circular note on this subject be sent to the powers, it will contain the exact dates of the Spanish communications, making it clear that the United States deferred its answer in order to be able to date this after the American forces had gained a footing in Porto Rico."

"Senor Sagasta said yesterday: 'We resolved on peace many days ago and made known our resolutions to the United States government. I regard as null and void and as destitute of good faith everything the Americans have done since, and I am ready to protest against it formally.'

"An official dispatch from Porto Rico says: 'On Tuesday the Americans advanced in the direction of Yauco, fighting most of the way. Seven hundred Spanish regulars and volunteers encountered them and an engagement ensued which lasted the whole night and only ceased with dawn on the following day. The Americans were obliged to withdraw to the coast.'

PREPARING FOR WATSON.

Spain Strongly Fortifying Gibraltar—Exchanged Civilities.

London, July 28.—The Gibraltar correspondent of the Daily News says: "A curious exchange of civilities has passed between Great Britain and Spain. The Spanish consul here, under instructions from Madrid, called on Sir Robert Biddulph, governor and commander-in-chief at Gibraltar, expressing concern lest the Americans should find 'facilities' at Gibraltar. The governor replied that the Spanish government might rest quite easy for if Commodore Watson came, the authorities would act strictly according to the queen's proclamation, copies of which, he said, had just been distributed to all the chief officials of the garrison."

"Spain for the last fortnight has been making extensive preparations in the Bay of Gibraltar. Twenty guns have just been shipped to Ceuta and four have been mounted around the bay. There are 11,000 men at Algeiras and 4,000 engineers are daily working at the batteries and fortified trenches behind the cemetery of Lina, a mile north of the British lines."

HAVANA EXAGGERATION.

The Wanderer Landed a Portion of Her Supplies For Gomez.

Washington, July 28.—Assistant Secretary McKeljohn has just received news of the result of the last expedition sent by him to Cuba to supply Gomez's forces in the western end of the island with food and munitions of war. This expedition was carried on the transport Wanderer. Havana reports describe the landing as a failure and say that four of the landing party, including the lieutenant, were killed.

This is the usual Spanish exaggeration. One third of the supplies carried by the Wanderer had been landed and sent into the territory beyond Spanish reach when an overwhelming force of Spanish troops appeared and compelled the abandonment of the attempt to land the remainder. None of the American party was killed, but four men were wounded. Their injuries were slight.

ANXIOUSLY WAITING

FOR THE GOVERNMENT'S REPLY
TO SPAIN.

Porto Rican Campaign Being
Pushed.—Sick at Santiago—
160th Indiana Ordered
to Move.

Foreign powers are anxiously awaiting the answer of the United States especially with reference to the Philippines. The apprehension exists in some quarters that the note presented by Spain was mainly for the purpose of drawing out this government on that point and preparing the way for a protest by the continental powers, should the United States demand the cession of the Philippines.

The Porto Rican campaign will be pushed with energy. The troops and orders have been instructed to move with all possible speed.

Maj. Gen. Shafter's daily bulletin shows a total of 3770 sick men in his army, of whom 2924 have fever. There were 639 new cases of fever Tuesday while 538 returned to duty. He reports four deaths from yellow fever Tuesday, and three from other fevers. Four other deaths from yellow fever not previously reported are also given.

The One Hundred and Sixtieth Indiana regiment at Chickamauga took the place of the Fifth Illinois, which while making preparations for departure were ordered to remain at Camp Thomas. The Indiana regiment will leave for Newport News today and then will be taken to Porto Rico.

LESSONS ON LIVING.

What is Taught by Graves Filled With Victims of Kidney Troubles.

Scientific Research has Revealed a New Remedy and Its Trials by the Public Has Proven its Value.

Prevention is better than cure—and, sometimes, if prevention is neglected, there is no cure possible. Careless people get in the grip of frightful diseases that will drag them down through days and nights of pain, to the grave because they neglect the common symptoms that indicate the danger of Bright's diseased kidneys, and various kidney complaints. Modern ways of living, especially in eating and drinking, have made kidney troubles terribly common, and the increase in death from this cause has led to the keenest kinds of research by scientists to discover what remedy would be provided.

After a thorough trial, thousands of cures have proven that the discovery of "Morrow's Kidney Pills" marks an epoch in the treatment of troubles due to derangement of the kidneys. They are unlike any other remedy in the world. The remedy of the so-called kidney cures, Morrow's Kidney Pills acts once, so that a long course of treatment is not needed. The doctor in the picture is the treatment illustrated by the case of W. H. Meyers, a well-known resident of Springfield, Ohio, living at 184 Warder Street. Mr. Meyers says: "For a long time I suffered with kidney and urinary troubles. I had such a severe backache and such a burning sensation when passing urine that I became alarmed. Nothing gave relief till I tried Morrow's Kidney Pills and one box quickly and completely cured me, and I have had no return of the trouble. Morrow's Kidney Pills are surely a wonderful kidney remedy, and I advise all who are afflicted with such troubles to use them and be quickly cured."

For this reason, it is taught by the graves needlessly filled with victims of kidney complaints is this: Don't neglect a backache, don't neglect a burning sensation, don't neglect a urinary complaint. They are signs of disordered kidneys which, if neglected, may lead to deadly disease. One box of Morrow's Kidney Pills will work wonders in improving the tone of your health.

You can get Morrow's Kidney Pills from all dealers at 50 cents a box, or \$2.50 for six boxes. Sent postpaid by the John Morrow & Co., Chemists, Springfield, Ohio, upon receipt of price.

Catarrh Cannot be Cured With LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonic known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. W. Milhouse.

THE DREADED CONSUMPTION

F. A. Slocum, M. C., the Great Chemist and Scientist Will Send Free, to the Afflicted, Three 10c Bottles of His Newly Discovered Remedy to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Conceded that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the Seymour REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 98 Pine Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the Seymour REPUBLICAN.

A BUSINESS PARABLE.

You Cannot Fail to Appreciate the Point in This Story.

Once a farmer had 1,800 bushels of wheat, which he sold not to a single grain merchant, but to 1,800 different dealers, a bushel each. A few of them paid him in cash, but far the greater number said it was not convenient then; they would pay later. A few months passed, and the man's bank account ran low. "How is this?" he said. "My 1,800 bushels of grain should have kept me in affluence until another crop is raised, but I have parted with the grain and have instead only a vast number of accounts, so small and scattered that I cannot get around and collect fast enough to pay expenses."

So he posted up a public notice and asked all those who owed him to pay quickly. But few came. The rest said, "Mine is only a small matter, and I will go and pay one of these days," forgetting that though each account was very small, when all were put together they meant a large sum to the man. Things went on thus. The man got to feeling so badly that he fell out of bed and awoke, and running to his granary found his 1,800 bushels of wheat still safe there. He had only been dreaming.

Moral.—The next day the man went to the publisher of his paper and said, "Here, sir, is the pay for your paper, and when next year's subscription is due you can depend on me to pay it promptly. I stood in the position of an editor last night, and I know how it feels to have one's honestly earned money scattered all over the country in small amounts."—Union Signal.

Dynamite in a Thrashing Engine.

Stanford, Ky., July 28.—A terrible crime was averted near here by the discovery of a stick of dynamite in the thrashing engine of George Young.

Before fire was started in the engine he concluded to clean the flues, when he discovered a heavy stick of dynamite in one of them. If the culprit is found judge Lynch may take a hand.

North Vernon Fair.

The North Vernon Fair, August 2, 3, 4 and 5, 1898, promises to suppress all former years in every respect. The early maturity of crops insures a fine display of the fruits of agriculture, and the exhibits in all lines will be exceedingly large. The racing will be superb, as sufficient inducement in increased purses and low entrance fees is offered to bring the best and most horses to this renowned track. Amusement of all kinds will be there in profusion. Reduced rates on all railroads.

United States Sanitary Commission.

Rushville, Ind., July 28.—A branch of the United States sanitary commission has been formed here. The following named persons were appointed on the finance committee: Joseph A. Armstrong, president; William S. Meredith, secretary; Nathan Weeks, treasurer, and Alphonse Riggs.

FAILED TO MEET HER

Mrs. Lindsay of Stockton Hunting Her Husband.

ORPHANS' HOME BURNED

Daughter Accuses Her Father of Murdering Her Brother—Foresters of America—Two Indians Die in Alaska, United States Sanitary Commission, Other State Happenings.

Stockton, Ind., July 27.—Mrs. J. W. Lindsay of this place, with her baby, went to Indianapolis yesterday on the hunt for her husband, who is a switchman employed by the Big Four company. Before starting for the city Mrs. Lindsay telegraphed her husband to meet her at the Union station. He failed to do so and as she was without money she was forced to ask the police for assistance and was taken to the Door of Hope from where she communicated with friends here. Mrs. Lindsay believes her husband is trying to get rid of her and the Indianapolis police will make an effort to find him.

TERRIBLE CHARGE.

Michigan City, Ind., July 28.—Harry Goldberg, 11 years old, the son of Samuel Goldberg, a Russian rag gatherer, mysteriously disappeared from home in October, 1896. Interest in the boy's disappearance has just been revived by the sensational statements of Lena, a daughter of the rag gatherer, who claims that her brother was killed by her father in one of his fits of passion, and that his body was buried in the garden lot. She also asserts that her father has been excessively brutal to other members of the family. Goldberg is now absent from home on one of his regular trips. The matter will be investigated.

ORPHANS' HOME.

Davies County Institution Totally Destroyed by Fire.

Washington, Ind., July 28.—The orphans' home of this county located in this city and erected in 1895 at a cost of \$23,000, caught fire yesterday and is now a mass of smoldering ruins. It was insured only for \$3,500. The origin of the fire is unknown. The home contained at the time of the fire 24 children between 1 and 16 years old, some of them sick with diphtheria. The home is maintained by the county and the loss is much regretted.

Pensions Granted.

Washington, July 28.—Pensions have been granted to the following Indians: Original—Henry Morrison, Mt. Vernon, 86; James W. Hoffman, Danville, 86. Reissue—(Special July 19) George W. Nash, Newark, 812. Original Widows, Etc.—Lydia A. Hardiman, Lyles, 88; Charity Medlock, Spencer, 88; Maria Gruber, Lawrenceburg, 812; Elizabeth Johnson, Logansport, 88; Harriet Clark, Linton, 812. Reissue—(Special July 20) Minor of James Parker, Vincennes, 144; Elizabeth Crull, Kokomo, 812.

Two Indians Die in Alaska.

Crawfordsville, Ind., July 28.—Mrs. Benjamin Fly has received a letter announcing that her husband had met his death at Dyea, Alaska. Fly went to Alaska when the gold craze came on, and instead of mining went into the lumber business. He was making a great deal of money and his death proved a great surprise to his wife, who had a letter from him, written on July 2. William Webb of Fountain county, who went north with Fly, perished in the great snowslide.

Wants \$10,000 Damages.

Bloomington, Ind., July 28.—James Trabue a week ago flagged a Monon passenger train near this city because of obstructions on the track. The conductor arrested him for blocking the track in order to pose as a hero. After a detention of 24 hours he was released. Trabue now sues for \$10,000 damages for false imprisonment. He belongs to a well known family in Louisville.

United States Sanitary Commission.
